Review-required compromise: 3 + 3 teams. 6 teams in the effective seed order · 1 held for placement review.

Start with the numbered MatchBalance Seed order. PowerScore remains the original published-strength baseline; bars use the same 0-100 scale. Competitive Breaks mark boundaries where nearby projected matchups meaningfully worsen; the PowerScore difference is supporting context; they do not assign divisions or pools. Recommended tier breaks use practical division sizes and all potential matchups. A tier can contain multiple pools. Very-close ranges identify the same competitive neighborhood without claiming the teams are equal. PitchRank score already adjusts for age, so a younger team playing up can be compared here. State rank is that team's rank within its own PitchRank age and gender group. Limited history: Fewer ranked games support this score. Keep it as a starting point for placement.
